

Scottish Cross Sectoral Leadership Exchange Programme

Executive Summary

Background

ACOSVO* offer Scotland's only FREE cross sectoral **Leadership Exchange Programme**. The initiative pairs leaders at middle, senior and executive levels in brief exchanges to learn from each other, develop an understanding of other sectors, cultures and environments, encourage collaborative working and improve leadership skill capacity.

The **Leadership Exchange Programme** was an ACOSVO initiative, developed in 2012, which has more recently become a work-stream of the Scottish Leaders Forum established by Workforce Scotland. It offers a practical response to the Christie Report, enabling leaders to develop their leadership skills required in order to support the Scottish Government's core priorities around; inclusive economic growth; public services reform; community empowerment; and tackling inequalities. It further aligns with Scottish Government's strategy to improve public services by making services more joined up through collaborative working.

How it Works

The peer learning initiative provides a flexible framework for participants to work alongside each other in their respective organisations, (be it third, public or private sector). A series of usually 3 – 6 meetings takes place over a 6 – 12 month period.

Exchange activities can involve; on-the-job shadowing; meeting colleagues or front-line staff; paired conversations; attending meetings or events together. The activities are however non-prescriptive, coordinated by the participants to suit their own learning objectives and fit round diary commitments.

To date 395+ participants have been matched. Incredibly positive outcomes have resulted from these exchanges and it has proven to be instrumental in building leadership capacity across Scotland's public services over the last 6 years.
